## A Message To Our Valued Customers

At Stamp-Connection, we are committed to providing you with the best customer service in the industry, all while helping you find the marking device to fit your needs.

We value the long term relationships with our customers more than the small profit we could make on one rubber stamp. That is why we offer our 100% Satisfaction Guarantee. If for any reason you are not satisfied with the stamp you have ordered, we will fix or replace it, regardless of the error.

With over 100 years of combined experience, our team at Stamp-Connection can help you find the right stamp or marking product. Order Online, Call, or See us at our office in Portland, Oregon. Ordering stamps should be as easy as possible and we are here to help make that happen.

In 2023 our goal, as always, is to provide you with quality products, fast turnaround, and outstanding customer service. We look forward to working with you and for you!

Please feel free to contact us with any questions, special quote requests, or complex orders. We look forward to doing business with you!

**IMPORTANT!** Multi-Surface pre-inked stamps utilize an alcohol based ink providing quicker drying on most surfaces. Unfortunately, some surfaces may have special coatings that slow the drying time and/or affect the print quality. Test a sample piece in an inconspicuous location before stamping the desired area. You should always have the bottom cover in place when not in use! Failure to do so will cause the ink to evaporate quickly. You should also keep the stamp in an upright position. If it becomes necessary to store a stamp for any period of time, add a few drops of ink in each hole prior to storage and a few more once a month to prevent the stamp from drying out completely. The use of an air-tight bag, such as a Ziploc, can help reduce the rate of evaporation.

Due to how easily these stamps can dry out when not properly cared for, we no longer offer our lifetime warranty for them when they dry out.
